CAREER OBJECTIVE

- MCA student with a strong foundation in full-stack web development using the MERN stack.
- Skilled in building responsive applications, REST APIs, and deploying scalable projects.
- Seeking an opportunity to gain hands-on experience and contribute to real-world development while continuously improving technical expertise.

EDUCATION

JG University

Master of Computer Applications (MCA)

2025 – 2027

Ahmedabad, India

President Institute of Computer Application

Bachelor of Computer Applications (BCA), CGPA: 7.89

2022 – 2025

Ahmedabad, India

PROJECTS

TaskFlow — MERN Stack Task Manager

github.com/dharmiksoni15/Task-Manager

React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a full-stack task management application with RESTful API integration and complete CRUD functionality.
- Developed modular React components using Hooks and Axios for real-time task updates and efficient state management.
- Implemented features including live search, task filtering, and analytics summary.
- Designed responsive UI with inline editing, notifications, and loading states using Tailwind CSS.
- Structured backend using MVC architecture with Express.js and Mongoose.
- Deployed frontend on Vercel and backend on Render; handled CORS and production integration issues.

MERN Stack Admin Dashboard

github.com/dharmiksoni15/Mern_stack_Project

React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

- Developed a full-stack application with JWT-based authentication and role-based authorization.
- Built REST APIs for user and contact management with complete CRUD operations.
- Designed frontend using React (Vite) with Context API for global state management.
- Implemented protected routes and middleware for secure access control.
- Enhanced UX with notifications, loading states, and confirmation prompts.
- Used MongoDB Atlas with Mongoose for scalable data handling and deployed on Vercel and Render.

TECHNICAL SKILLS

Frontend: React.js, Angular (Basic), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB Atlas, Mongoose

Tools & Technologies: Git, GitHub, Postman, VS Code, JWT, bcrypt, Zod, Axios

Deployment: Vercel, Render

CORE COMPETENCIES

- Strong understanding of asynchronous JavaScript (Promises, async/await).
- Experience with API integration, debugging, and performance optimization.
- Familiar with modern development practices and clean code principles.
